SKU  
: 62

BRAND  
: DIXON VALVE

MODEL  
: 0999

### Use:

For silicone, vinyl, polyurethane or other high-tech materials  
For low durometer and/or thin-walled hose/tubing

### Features:

Stepless® ear clamps hold against pressure and vibration or material shrinkage due to temperature changes or aging. A built-in spring action permits the clamp to breathe without loosening.  
Once installed and clamped, any tampering is easily visible  
Ensured clamping seal  
Smooth inner band prevents damage to the hose while the tongue-in-groove design provides a 360° seal.  
No steps or gaps inside the clamp

### Installation

Install clamps using 1098 or 1099 clamp tools

### Note:

When ordering Stepless® ear clamps, select the nominal size nearest to, but always larger than, the outside diameter of the material to be clamped. The outside diameter should be determined with connection fully assembled.

### Safety notes:

Clamps are not reusable; they should not be pried open, doing so renders the clamps nonfunctional.
