DATE

: 07/09/2026 01:00 AM

SKU

: 3189

BRAND

: DIXON VALVE

MODEL

: 3-480-3501

### Applications:

Butterfly valves are commonly used on dry bulk tankers to control the flow of product; designed to be placed between 2 ASME/ANSI 125 or 150 lb. flanges.

### Features:

Handles are high strength 713 aluminum, with a retrogressive re-aging process which creates a stronger handle than the cast iron handle which are commonly used in the industry.

Stainless discs are standard for superior wear resistance

Flange gaskets are not required; the valve's elastomer seat also doubles as the flange gasket.

### Construction:

Aluminum body with stainless steel disc

Polymer bushings

FDA approved Buna-N (Nitrile) seals and seats, -20

Stainless steel spring, stem and locking lever pin

Aluminum handle and throttling plate

### Note:

Handle kits are sold separately, choose aluminum or iron

Replacement discs and seals are available

### Safety notes:
