

## ONE PIECE ALUMINUM BUTTERFLY VALVE WITH STAINLESS STEEL DISC

DATE

: 04/22/2026 05:01 PM

SKU

: 5500

BRAND

: DIXON VALVE

MODEL

: 6-400-3501

Applications:

Butterfly valves are commonly used on dry bulk tankers to control the flow of product

Use:

Designed to be placed between 2 ASME/ANSI 125 or 150 lb. flanges.

Features:

Handles are high strength 713 aluminum, with a retrogressive re-aging process which creates a stronger handle than the cast iron handle which are commonly used in the industry.

Stainless discs are standard for superior wear resistance

Construction:

Aluminum body with stainless steel disc

Polymer bushings

FDA approved white Buna-N (Nitrile) seals and seats

Stainless steel spring, stem and locking lever pin

Aluminum handle and throttling plate

Note:

Flange gaskets are not required; the valve's elastomer seat also doubles as the flange gasket.

Safety notes:

WARNING: Cancer and Reproductive Harm- [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)
