

BAYCAST SAND TEE

DATE
: 04/20/2026 10:31 PM

SKU
: 11276

BRAND
: DIXON VALVE

MODEL
: DB500TI-VXV

Applications:

Used in the pneumatic loading and unloading of frac sand, cement, or any abrasive materials from a cargo tank.

Features:

BayCast is a durable and long lasting cast iron alloy from Dixon Bayco ideally suited for resisting wear from abrasive materials.

High flow design speeds drop rates and provides a long lasting wear resistance

Schedule 80 wall thickness and extra thick saddles increase service life

Protective finish resists rusting

Safety notes:

WARNING: Cancer and Reproductive Harm- www.P65Warnings.ca.gov
