### Applications:

Boss Holedall fittings are designed for air and liquid applications where a permanent, low profile clamping system is desired.

### Features:

Fittings are supplied with carbon steel ferrules.

### Construction:

Machined shank

### Note:

Dixon has changed this part from a cast shank to a machined shank. Because of this change we have updated the swage / crimp chart. Please consult the new recommendations on our website for swage and/or crimp specifications.

### Safety notes:

Not for steam service.

Worn-out hose couplings can be dangerous. They should be checked regularly and replace when necessary. Each coupling user should review applications and add safety devices where indicated.
