

Available Options:

NBR and FKM sealing sleeves are also available, contact Dixon

Installation

Requires no special tools or pipe-end preparation; only a torque wrench is required for a secure and safe pipe connection that seldom needs retightening.

Safety notes:

All Straub couplings require the correct use of a torque wrench for a safe and proper installation.

Straub couplings must be torqued to the specified value as printed on each individual coupling. Failure to do so can result in serious injury or death.

Not for steam or refrigerant service.

WARNING: Cancer and Reproductive Harm- www.P65Warnings.ca.gov

TECHNICAL SPECIFICATIONS

Factory Part Number	STR20100
Material	Stainless Steel
Pipe OD	1.33"
Range	1.31" to 1.35"
Size	1"
Temperature Range	-4°F to 176°F (-20°C to 80°C)
Weight Lb	0.4000
Working Pressure	550 PSI
