Simplify installation with Graco's 4-way directional control valve. The GRACO 120581 is used to simplify the filling and emptying of tanks.

Features & Benefits:

Simplifies installation by eliminating need for multiple valves

Unrestricted flow – no pressure or volume loss

Two position tank fill and emptying control

Tapered, self seating valve spool for superior sealing performance

Four (4) 5/16 inch threaded bolt holes for flush mount installation

Common Applications:

Filling and emptying waste oil containers on lube trucks

Transfer fluids from bulk supply tanks to operational day tanks

Typical Fluids Handled:

Petroleum and synthetic based oils, Fuels, Anti-Freeze and Windshield Wash
