MODELO

: 13MHHV400

Note:

Wing nut tightened to 25 in. lbs. torque

Please note in sizes 1/2" through 12" pipe is known by its nominal inside diameter, which differs from its actual inside diameter. To distinguish pipe sizes from actual measured diameters as used for tube, the terms iron pipe size (IPS) or nominal pipe size (NPS) are usually used. For all pipe sizes, the outside diameter (OD) remains constant; the variations in wall thickness affect the inside diameter (ID).

Safety notes:

Service pressure ratings are based on the following parameters: matching elastomer gaskets and weld ferrules properly aligned and assembled with the clamps tightened to required torques. Tests are done hydrostatically with no water hammer or shock loads.

All ratings shown are dependent upon related components within the system and proper installation.

ESPECIFICACIONES TÉCNICAS

Factory Part Number	13MHHV400
Material	304 Stainless Steel
Pipe Size	4"
Pressure Rating	150 PSI at 70°F
Weight Lb	1.3500
